

My Everything

Lecrae

Lord of the highest, I can't deny it
You are everything, everything to me
Lord of the highest, I can't deny it
You are everything, everything (Yeah)

Look, I don't need no peace and quiet, I just need a peace of mind
Wrote this for the broken hearts, they can have a peace of mine
When I said the sinner's prayer, I didn't feel no change inside
This evil knocking at my door, Jesus told me stay inside
Now I think I got it, now I think I get it
God was waitin' on me even though it took a minute (Wow)
Took all of my failures and erased it
Told me He ain't never late, it's just that I'm impatient
Thought I couldn't face it
People hoping that I fell instead of praying for me
They just tellin' folks, "Don't go to hell"
But You never quit on me, love me with a passion
Love me like I'm first even when I come in last
Last shall be first and the first shall be last
Past get erased, and the present, it'll pass
Thank You for Your love 'cause Your love is everlastin'
I'm just glad to know You'll resurrect me from the casket

Lord of the highest, I can't deny it
You are everything, everything to me
Lord of the highest, I can't deny it
You are everything, everything to me (Look)

What am I to say that I ain't said about a million times?
How You rescued me from darkness, I was living blind
I ain't listen to Your voice, but You kept on sending signs
I was fightin' for my soul, You just told me, "Give it time"
Talkin' out the side of my face
They told me, "Taste and see the Lord is good," I'm walkin' by faith
Remember struggling my whole life, just maintaining
Tryna nurse all of these wounds, doing the same things
Man, Your love is so good to me, Your glory reigns
Tears taste better when you growing from the pain
Know You're working on me when it feel like nothing's changin'
I just needed savin', I just needed savin'
And Your grace so amazing
Got my face to the pavement
Your blood was the payment
Your blood was my payment

Lord of the highest, I can't deny it
You are everything, everything to me
Lord of the highest, I can't deny it
You are everything, everything to me
