

## On Time

Lecrae

Hold it right there, tell them wait up  
He be on time with it, always on time  
I've been prayed up, throw it way up  
He be on time with it, always on time  
Always with me  
He be on time with it, always on time  
Always with me  
He be on time with it, always on time

Hey, where you at, yeah I'm finna come scoop you  
Covered by the blood, but I ain't yelling soooooop  
Out in New Orleans with my team going cuckoo  
Holy Spirit on me, give a boot to the voodoo  
And I'm fresh outta church feeling scholar  
In the parking lot, get it popping like my collar  
Lit, if you tryna call the cops, don't bother  
Even the police came to give praise to the Father

On a one oh five in my whip, we mobbing  
God been too good to forget He got us  
Took the wheel like a chauffeur, getting closer  
Bringing Christ in the culture

Hold it right there, tell them wait up  
He be on time with it, always on time  
I've been prayed up, throw it way up  
He be on time with it, always on time  
Always with me  
He be on time with it, always on time  
Always with me  
He be on time with it, always on time

They probably think I did it by myself  
They don't see it though, that God guides my steps  
I was struggling, I ran out of breath  
But the Spirit gave me life after death  
On time God, when I need Him, He gon' come through  
You ain't shining til you see what the Son do  
I was down bad with nowhere to run to  
Had me fighting all my demons like I'm Sun Tzu  
But He came through, He was on time  
He ain't never late, He show up in His own time  
I just had faith, now it's alright  
When you walking in His light, you know you gone shine

On a one oh five in my whip, we mobbing  
God been too good to forget He got us  
Took the wheel like a chauffeur, getting closer  
Bringing Christ in the culture

Oh, and He with me  
Oh, He with me  
Oh, oh He's with me  
Oh, oh

Hold it right there, tell them wait up  
He be on time with it, always on time

I've been prayed up, throw it way up  
He be on time with it, always on time  
Always with me  
He be on time with it, always on time  
Always with me  
He be on time with it, always on time

Oh, and He with me  
Oh, He with me  
Oh, oh He's with me  
Oh, oh
