

Save Us

Lecrae

I'm sorry
I started the same drugs
No church in a while (Save us, save us)
No church in a while (Save us, save us)
Save us, save us (Oh-oh, oh-oh)
Save us, save us (Oh, oh-oh)
Save us, save us (Oh-oh, oh-oh)
Save us, save us

Invested so much in this game, I'm just wonderin' where's all my profits? Hu
h? Ha
They tryna bait me with hate and false prophets, I'm weighin' my options
Should I stay or just stop? I'm poppin', I know He ain't sent to talk 'bout
my watches
'Bout my houses and four-car garages
I lie on my bed, prayin' face up
With my eyes open, hopin' He say somethin' (Please)
Yeah, tripled the price in a week (Week)
Spirit is willin', my flesh feelin' weak (Weak)
Clocks on my wall and I still can't get sleep
'Cause I keep seein' people get killed in the streets
I got my pride on a leash
Life on a lease, I've been dodging the beast
Sex, money, mayhem, I'm fighting for peace
Please send Your angels to watch over me

Save us
Whenever I fall asleep, Father, wake us, uh
Gotta be more than dreams, won't You save us
Mercy unfold
Heaven's an open door

Hey, no more locked doors
I took the keys out the janitor's closet (I took the keys)
It was me, you can call the police
I know I'll be set free, if they cuff me about it (It was me)
On the way to the jail, it rerouted
Came home to my family, they seen me, then shouted (What they said?)
Hallelujah, they thought it was over (Yeah)
Spend a night in the swamp with the ogre (Shrek)
When they try you and talk to you vulgar
Walkin' through life, I'm tryna get new balance
I rolled the dice and took too many chances (Hey)
Hand on the Bible, it might come in handy (Handy)
Life is not fair but I got cotton candy (That's the game)
My life is new, I can't throw it away (Brand new life)
Mercy rainin' on me, they complainin' on me
While I'm drippin' in grace (God, save me)
Father, save us

Save us (Save us)
Whenever I fall asleep, Father, wake us (Wake us), uh
Gotta be more than dreams, won't You save us
Mercy unfold (Mercy unfold)
Heaven's an open door (Heaven's an open door)

Finally free, I got the key

Closer to Heaven when I'm on my knees
Heart on my sleeve, pardon my steez
Fightin' my demons, I walk with a lean
Dodging debris, fallin' like Eve
It ain't a seed in my family tree
Runnin' our fleet, confess and relieve
This ain't Lil Holy, it's WHATUPRG
Guidin' my soul, walkin' on gold
Lost in eternity, back in my zone
In with the new, out with the old
Praise to the Holy One up on the throne
This for the heart, this for the soul
Why would I rap 'bout the things that I own?
I gotta walk what I talk when in Rome
Hop out the grave and I'm rollin' the stone

Save us
Whenever I fall asleep, Father, wake us, uh
Gotta be more than dreams, won't You save us
Mercy unfold
Heaven and open door
