

## Self Discovery

Lecrae

He was a smart kid  
It was always about Lecrae because he was the baby  
We knew he had something in him  
Never expected this though

Now, grandma said we came from Jamaica  
Crossed the ocean till we made it  
And my DNA test said the westside of the motherland  
Is where they take us from, um  
Never met my daddy side  
So I couldn't tell you if I'm Zulu or Xhosa  
Couldn't tell y'all how I be courtside  
Or made it this far without a cosign  
Of course I struggled a lot and stayed prayed praying  
Unforgettable  
Swae Lee, Swae Lee  
Demons Achilles  
KD, KD  
Now I'm up, it's a real life  
And when it get real, I can feel Christ  
Heal this branch on the family tree  
That was here for me, man, the roots so deep

Self discovery  
Self discover me  
Help uncover me  
Help me to understand who I'm supposed to be  
Not just a wannabe

(It's dangerous over here)  
(This is a dangerous area)  
(Gimme my money, fool!)

I seen big pain, big loss, but still been big blessed (Blessed)  
All that cap, big-big-big-big-big-big-big stress  
All y'all want big house, big car, big ice, big checks  
Man, I wish y'all did-did-did-did-did that less

(You ain't gone be nothin')  
(You daddy wasn't)  
(You ain't gone be)  
(I know that he always had, uh)  
(Something in him)

Yeah, my little cousin was hitting me up  
Man, I changed all my numbers I never knew  
Crazy how digits were causin' division  
Can't nobody get at the revenue  
Seven numbers on a smartphone  
Equal cash, had the lights on  
I get royalties but I got loyalties  
So send a bill, I'll go half on  
Half black, half unknown  
Are we Cherokee or Seminole?  
I got PTSD running through me from my kinfolk  
Stress had me going AWOL  
Sin got me acting Adolf

I'm like "aye y'all, I need days off  
I'm depressed having brain fog"

It's obvious I'm highly blessed  
I finally get to understand what a man is  
When he at his godliest  
To get there I was highly stretched  
And I was highly stressed

(I gotta deal with bloods and crips, calvanists and charismatics)  
(Black, white, red, brown, y'all ain't gon' stress me out)

I seen big pain, big loss, but still been big blessed (Blessed)  
All that cap, big-big-big-big-big-big-big stress  
All y'all want big house, big car, big ice, big checks  
Man, I wish y'all did-did-did-did-did that less
