

Still Here

Lecrae

Take the pain away
Take the pain away
Still another day
I gave you all of my heart

Gave all of your heart
Life broke it apart
I'm still here, I'm still here
I know it's been hard
Through all of your scars
I'm still here, I'm still here

Yeah, still here if you still care
And life keeps on handing me problems
It's getting so real here
Tryna see through these warm tears
Love is feelin' really foreign here
Lonely nights is like the norm here
Aye, feelin' like Yeezy, baby
I was losing my mind
Gave up all of my time
But it never got easy, baby
Well, that's shame on me
Feel the rain on me
It ain't been my season lately
Tryna get through the day
I break down when I pray
I don't know what to say
Help me, I'm 'bout to drown, drown, drown, drown
If you can't hold me, then hold me down, down
And if you love me, then show me a way out
I'm out here tryna live
I gave all I can give
They say God always near
Let me know if you're here

Gave all of your heart
Life broke it apart
I'm still here, I'm still here
I know it's been hard
Through all of your scars
I'm still here, I'm still here

Never gon' let me go
Never gon' let me go
(I'm still here, I'm still here)
Bring me right back home
Bring me right back home
(I'm still here, I'm still here)

I've been up for like 24
Feeling down for like 20 more
Feels like life's winning 2-0
And this my last chance to bring it home
Help me, I surrender
Got no tears left to cry
Hands to the sky, can you give me a sign

I'm breaking down, down, down, down
If you love me, then show me the way out
Feeling so lonely right now
I keep on looking your way
Tryna hold on to my faith
Still tryna heal from the pain
Tell me, it won't last always

Gave all of your heart
Life broke it apart
I'm still here, I'm still here
I know it's been hard
Through all of your scars
I'm still here, I'm still here

Never gon' let me go
Never gon' let me go
(I'm still here, I'm still here)
Bring me right back home
Bring me right back home
(I'm still here, I'm still here)

Never gon' let me go
Never gon' let me go
Bring me right back home
Bring me right back home
