We Did It

Lecrae

They say that boy can't take the pressure, but they see that I did it
Momma, I finally learned my lesson, now we counting them digits
And I came up from the bottom and don't ever forget it
We did it, we did it, we did it, we did it
Hold on, my brothers, we got blessings on the way (We did it)
I told them clouds, "We gon' need some brighter days" (We did it)
And I know that He would always make a way, tell 'em we did it
We did it, we did it, we did it, yeah

A couple babies, couple cars, with the crib (We did it)
I took a trip out of the country on a whim (We did it)
And looked to everyone who told me I would lose, I'm winning
I was sleeping in a basement, I couldn't afford to pay rent
Was grinding, ain't no 9 to 5, I worked that 2 to 7
When you clock out in the morning that's that opposite of heaven
Mama tripping, she like, "Boy, if you don't get up out my kitchen"
Plastic, forks, and paper dishes, trying to make it out these trenches
I've been down, I've been low, gas on e, bills keep piling
I don't look like where I came from, had to put it on the line
I was working every day to make a way for me
Now, I know for sure that somebody was praying for me

They say that boy can't take the pressure, but they see that I did it
Momma, I finally learned my lesson, now we counting them digits
And I came up from the bottom and don't ever forget it
We did it, we did it, we did it
Hold on, my brothers, we got blessings on the way (We did it)
I told them clouds, "We gon' need some brighter days" (We did it)
And I know that He would always make a way, tell 'em we did it
We did it, we did it, we did it

I done came up, came down, southside, H-town
Shoutout to my day ones, all my dogs that stayed down
Plenty people wishing I would fall on the way
My uncle told me, "Don't you start if you can't finish the race
And if you ain't gonna do it, right, don't you do it at all"
I meditate for my balance, I used to stumble and fall
I had to double up the prayers, call on God for favor
Came from shooting dice, and now I'm shooting hoops with hall of famers
Things good, parked the Cadillac on 28th 'cause we hood
Barbecuing on the front lawn, we eat good
Was trying to make a way for me
Now I know for sure that somebody was praying for me

They say that boy can't take the pressure, but they see that I did it
Momma, I finally learned my lesson, now we counting them digits
And I came up from the bottom and don't ever forget it
We did it, we did it, we did it, we did it
Hold on, my brothers, we got blessings on the way (We did it)
I told them clouds, "We gon' need some brighter days" (We did it)
And I know that He would always make a way, tell 'em we did it
We did it, we did it, we did it, yeah

Look around, no more clouds, brighter days
I believe we gon' see brighter days
(Brighter days, brighter days, brighter days)
Look around, no more clouds, brighter days

(Brighter days, brighter days, brighter days)
I believe we gon' see brighter days
