

Wheels Up

Lecrae

And for one second all my problems
Fade to gray like no one saw them
I get a God's eye view on everything
Looking out my window pane
Wheels up, put the seats back
Wheels up, put the seats back
Yeah-yeah-yeah-yeah-yeah, yeah-yeah, yeah-yeah-yeah-yeah
Some days I can't believe how far we made it
I thank God for the fans and pray for patience
At twenty thousand feet we coming straight up
Wheels up, put the seats back
Wheels up, put the seats-

Okay, I was told a long time ago
To let the drama go and go and find a goal
Run for the edge like Geronimo
Sky high, I fly, I'm vamonos
All that was a lifetime ago
Nowadays I just gotta make time to go
Take my G's to Belize, now we all overseas
Man, look at what God be on
Lord, got me on, guide me home
When I die, I reside where I belong
When I fly, I delight, the flight is long
Give me time, clear my mind, and find my zone
Yeah, introverted work, please do not disturb
I just need some time for me
Isolate and meditate and pray and wait
And hope somebody pray for me
Paint these pictures (Pictures)
Bury my face in scripture (Scripture)
Pray that my soul delivered
Fall on my knees, I know He hear me
I was on cruise control (Cruise)
That's how you lose control (Lose)
And you gon' be what you pursue
I had to renew my goals

And for one second all my problems
Fade to gray like no one saw them
I get a God's eye view on everything
Looking out my window pane
Wheels up, put the seats back
Wheels up, put the seats back
Yeah-yeah-yeah-yeah-yeah, yeah-yeah-yeah, yeah-yeah-yeah
Some days I can't believe how far we made it
I thank God for the fans and pray for patience
At twenty thousand feet we coming straight up
Wheels up, put the seats back
Wheels up, put the seats-

Listen, I done been through too much (Too much)
Scared I'ma lose my touch (Touch)
I'm tryna hold what I can't have (Can't have)
Lord God, please loosen up my grasp
I've been broken hearted, mind departed
Stopped and started, lost my hope

And lost my way
I let my lustin' bring destruction
No discussion with the God who gave me grace
5: 46 in the morning, mind still turning
God had to bring me back
I ain't even really wanna rap no more
Wheels up with the seat back, let's go
Wow, people having dreams about me
They was right, I was losing sight
Then I clicked my heels and then He lift the wheels
And we above the clouds there's no rain tonight
And I'm finally seeing with a clear vision, I believe
God is greater than all this trouble that I see
Trapped under the sea, I wait to see what swallowed me
I'm finally free, yeah

And for one second all my problems
Fade to gray like no one saw them
I get a God's eye view on everything
Looking out my window pane
Wheels up, put the seats back
Wheels up, put the seats back
Yeah-yeah-yeah-yeah-yeah, yeah-yeah-yeah-yeah-yeah-yeah
Some days I can't believe how far we made it
I thank God for the fans and pray for patience
At twenty thousand feet we coming straight up
Wheels up, put the seats back
Wheels up, put the seats-

(Wheels up, put the seats back)
(Some days I can't believe how far we made it)
(I thank God for the fans and pray for patience)
(At twenty thousand feet we coming straight up)
(Wheels up, put the seats back)
(Wheels up, put the seats-)
