

All The Way

Ledisi

It's one of those days when life's got me down
Where are you now, I'm needing you
You say the right thing and everything is wonderful
Take all my scars and my broken heart
Promise that you will cover me
Give me your rock, say it's not make believe

Love me, with all of your heart
Will you love me? when things get too hard
And I need you more, make sure you're sure
That you'll love me all the way
Show me that you'll take care of me
Will you show me, that I'm your everything
And I'll be yours, make sure you're sure
That you'll love me all the way

When I feel nothing, like I am nothing
If I have nothing but love, will you stay
We'd be the same when everything's not beautiful
I'm not perfect, but I'm worth it
Love me all the way 'cause I deserve it
I'll give everything to you, but you gotta make me believe

That you Love me, with all of your heart

Will you love me? when things get too hard
And I need you more, make sure you're sure
That you'll love me all the way
Oh show me that you'll take care of me
Will you show me, that I'm your everything
And I'll be yours, make sure you're sure
That you'll love me all the way

I know I ask for too much
Even oddly enough, 'cause this is bigger than us
Love you from now til the end
When time runs out we'll start again
All that I'm asking of you is

Love me, with all of your heart
Will you love me? when things get too hard
And I need you more, make sure you're sure
That you'll love me all the way
Show me that you'll take care of me
Will you show me, that I'm your everything
And I'll be yours, make sure you're sure
That you'll love me all the way

Love me all the way
All the way, ay yeah
All the way
