

Keep U In Mind

Ledisi

Not a, nah-nah
Not a, nah

Not a day goes by that I can't help thinking 'bout when we're together
You know, you know
I know time's been hard to measure, but you can count on me to show,
to show, to show
You know, you know
With you, all my guards are down
I don't have to be nobody else
You know, you know
Oh, every time I look around, it's like
I'm looking at my forever
You know, you know

When I can't be by your side, work takes up my time
Just know that I keep you in mind, I keep you in mind
No, I won't be hard to find when our stars align
Just know that I keep you in mind, I keep you on my mind, yeah

It don't, it don't, it don't matter
Don't let none of the distance deceive you
Soon as I leave, I can't wait to get back
Mmm, 'cause baby, you're enough
You make everything feel better
Oh, I'm with you, don't let go
Ooh, every time I look around, things changed
Your lovin' feels the same, but better
You know, you know
And when the moon wakes up the sun too fast
Oh, baby, never say goodbye, see you the next time
A kiss before you walk away

When I can't be by your side, work takes up my time
Just know that I keep you in mind, I keep you in mind
No, I won't be hard to find when our stars align
Just know that I keep you in mind, I keep you on my mind, yeah
When I can't be by your side, work takes up my time
Just know that I keep you in mind, I keep you in mind
No, I won't be hard to find when our stars align
Just know that I keep you in mind, I keep you on my mind

It don't, it don't, it don't matter (You're the only one for me)
I keep you in mind, I keep you on my mind (I ain't lookin' for nothin',
, I ain't nothin' but you, it's but you, babe)
It don't, it don't, it don't matter (Don't matter what they think about)
Yes, I keep you in mind, I keep you on my mind, yeah (You're the only one for me)
