

Like It Was

Ledisi

Touch me, then I walk away
Part of me don't wanna stay
Where do I go when you close doors?
Ooh, we'll never be like yesterday
So far down, come up, I wanna fly
To a golden sky, yeah

I don't even know why you want me back
You just don't want no one else to hold me
You want love to be, be like it was, yeah
Oh, I don't wanna stay if you can't love back
We went through a storm and now the rain's gonna come
Oh, let the rain come

Mmm, say you need me right now or say I gotta let us go
Make love for hours, then we can move on, yeah
What you want? Come on, say it
Tell me how you feel, baby, I can't take it
Two hearts are one even when the rain comes, yeah

I don't even know why you want me back
You just don't want no one else to hold me
You want love to be, be like it was, yeah
Oh, I don't wanna stay if we can't love back
I don't even know what we should be
I want love to be, be like it was

Oh, baby, baby, you know me, darling
I need air, you gotta free me
Baby, baby, you are my darling
You gotta free me, please, yeah
Oh, baby, baby, you know me, darling
I need air, you gotta free me
Baby, baby, you are my darling
You gotta free me, please, yeah

Oh, I don't even know why you want me back
You just don't want no one else to hold me
You want love to be, be like it was, yeah
Oh, I don't wanna stay if we can't love back
We went through a storm and now the rain's gonna come
Ooh, let the rain come

Oh, baby, baby, you know me, darling
I need air, you gotta free me
Baby, baby, you are my darling
You gotta free me, please, yeah
Oh, baby, baby, you know me, darling
I need air, you gotta free me
