

Mine

Ledisi

Why didn't you say it
The truth in the beginning
That you were taken now we're at the ending
Look what you did to me
I'm here undoing what you started
Your words, your voice I hear
My smile now turned to tears
I can't help but think about you
And all of the reasons why I didn't doubt you
You made a fool of me
Memories how I made you smile

Your eyes, your hands I see
You saying you miss me
Your words, your voice I hear
I wish that you were here with me

If you were mine
My touch would drive you crazy
You'd always be my baby
I wish you were mine
You would never go, you would wanna stay with me
If you were mine

Intoxicating baby you're the one
Fascinating but you create confusion
Look what you did to me
Conflicted and you broke my heart
Can't help the way I feel
I thought your love was real
Oh, it's hard to hear the truth
Maybe I'll get over you
Somebody set me free
You came right at the wrong time

Your eyes look right through me
Your mouth, your lips so sweet
Your words, your voice I hear
I wish you were here with me

If you were mine
My touch would drive you crazy
You'd always be my baby
I wish you were mine
You would never go, you would wanna stay with me
If you were mine

Go! I just can't let go
Your love got me up all night
This shit ain't right
I can't help but think about you
Oh! I wish I could let go
Why you do this?
Playing with me heart
You had me thinking one day you would be mine

If you were mine

My touch would drive you crazy
You'd always be my baby
I wish you were mine
You would never go, you would wanna stay with me
If you were mine

If you were mine
I need you here with me
My touch would drive you crazy
You'd always be my baby
I wish you were mine
You would never go, you would wanna stay with me
If you were mine

Mine... I would never let you go...
Mine... I would never let you go...
Mine... I would never let you go...
Mine... I would never let you go...
If you were mine

If you were mine
You'd always be my baby
I wish you were mine
You would never go, you would wanna stay with me
If you were mine

If you were mine
If you were mine
I know, I know, I know...
I wish you were mine...
