

# Shot Down

Ledisi

Tryin' not to lose my mind  
Woke up feelin' like I'm losin' time  
Looked out the window, hopin' nothing serious went down today  
Oh no, another story line  
Another paddle in the sunshine  
They pull the trigger lookin' down at the ground where he lay

Lord, I don't know  
Tell me is the [?] gone from east to when  
Are we born to die 'cause the price too high?  
All because the color of skin

Ooh, he was shot down this day  
In the middle of his story, uh huh  
She was shot down in the park  
In the middle of the day, hey

Shot down on display in the middle of a story, uh huh  
Shot down didn't obey that's what somebody say, hey

Oh, I can't believe we can be so cold  
We walk around like we lost our souls  
Rocket love is pocket love and no one cares to stop and make a change  
Education is a loaded gun  
Shot down before I even had a chance to run  
The system says we matter but the Black Lives only matter certain days

Lord, I don't know  
Tell me is the [?] gone from east to when  
Are we born to die 'cause the price too high?  
All because the color of skin

Ooh, he was shot down this day  
In the middle of his story, uh huh  
She was shot down in the park  
In the middle of the day, hey

Show down on display in the middle of a story, uh huh  
Shot down didn't obey that's what somebody say, hey

She was shot down  
Shot down  
Shot down

Aye, aye  
I want peace to win  
Yes, yes  
I want peace to win  
Yes, yes  
I want peace to win  
Yes, yes  
I want peace to win
