

# Upside Down

Ledisi

Upside down dow dow do di do  
Upside down dow dow do di do  
Turn it around around around  
Upside down dow dow do di do  
Got to change

World, are listening  
World, pay attention  
Oh World, where is your heart?  
World, love gave us this start again

I see (everybody looking for) everybody's looking for (the answer  
that we open the door) the answer that will open the door  
(The key to everlasting life) to obtain everlasting life  
Too much pain inside

Leaders with your hands out  
There are children with empty mouths  
Preachers tell us about the lies  
So we can learn live right

I see (everybody looking for) everybody's looking for (the answer  
that we open the door) the answer that will open the door  
(The key to everlasting life) to obtain everlasting life  
Too much pain inside

Do something  
Do something  
Do something  
Do something  
Do something  
We got to make it better  
What about the babies  
Save the World , Save the World

Turn it around around  
Turn it upside down  
Turn it upside down  
We got to turn it around
