Hello it's solo friday  
Love on the super highway  
Talk to me make me feel alive  
Plug into the 2d party  
I put out what I want you to see  
Safe and sound here on the inside

R:

Whoa whoo whoa how  
I can't shake this monkey off my back  
Whoa whoo whoa how  
Reality you can hijack  
Where everybody's happy  
Everybody's gloomy  
Baby got a rocket but the [?] is on  
Everybody's flashing like a jumping jack to stay  
Hey hey hey popular

R:

Wish I could erase that picture  
Permanent history fixture  
We all know a picture never lies  
Oh I'm a social scene butterfly  
Watch my mirror neuron slowly die  
Down the rabbit hole i go again tonight

R:

Whoa whoo whoa how  
I can't shake this monkey off my brain  
Whoa whoo whoa how

No pain no shame no shame  
Where everybody's happy  
Everybody's gloomy  
Baby got a rocket but the [?] is on  
Everybody's smiling  
Just like in the movies  
People tryna feel like we all belong  
Everybody wants get in on the action  
All of the neighbors have some fun going on  
Everybody's staching I can tell [?]
