

Have You Seen That Girl

Lee Ann Womack

Innocent, Confident
With a hint of curiosity and an air of what you see is what you
get
Fun to be around
Laugh at herself
Never worried
Life is short but whats the hurry
Bright-eyed and ready to take on the world

Have you seen that girl
That everybody says I used to be
Have you seen that girl
Where along the way did I lose me?
Have you seen that girl

She was full of life
Looked on the brighter side
If it was worth a chance she'd take it
Said that life is what you make it
But a few wrong moves led to a few wrong turns
And once your burned your not the same
You tend to shy from the flame
I hate to think shes givin up her dream

Have you seen that girl
That everybody says I used to be
Have you seen that girl
Where along the way did I lose me
Have you seen that girl
Where along the way did I lose me
Have you seen that girl
