Do Not Disturb

Lee Brice

I dropped a pin on your cellphone
Don't wanna hear no talk back
Just get in your car and drive downtown
I'm here waiting
The key's there at the front desk
Just bring yourself I got the rest
Take the elevator to 4 room 4210 baby

There's a sign on the door
Baby you can ignore
Come in slip off your heels
Leave your dress on the floor

We need some do not disturb time baby
Some leave the world outside time baby
It's been a long time coming lately
Some do not disturb time baby
So do not disturb time

We're gonna take our time
Make it last all night
I made up my mind
We're making love tonight
Leave the kids at home
I need some you alone
I know that

We need some do not disturb time baby
Some leave the world outside time baby
It's been a long time coming lately
Some do not disturb time baby
Do not disturb time

There's a sign on the door
Baby you can ignore
I'll give you all that you need
Then I'mma give you some more

Do not disturb time baby
Some leave the world outside time baby
It's been a long time coming lately
Some do not disturb time baby
Do not disturb time
Do not disturb
Do not disturb time
Do not disturb baby
Do not disturb
Do not disturb
Do not disturb time
Do not disturb
Do not disturb baby
Do not disturb
Do not disturb
Do not disturb
Do not disturb
