

Don't Need No Reason

Lee Brice

I dropped a pin on your cellphone
Don't wanna hear no talk back
Just get in your car and drive downtown
I'm here waiting
And yeah, the key's there at the front desk
Just bring yourself, I got the rest
Take the elevator to 4
Room 4210, baby

And there's a sign on the door
Baby, you can ignore
Come in, slip off your heels
Leave your dress on the floor

We need some do-not-disturb time, baby
Some leave-the-world-outside time, baby
It's been a long time coming lately
Some do-not-disturb time, baby
Some do-not-disturb time

We're gonna take our time, make it last all night
I made up my mind, we're making love tonight
Leavin' the kids at home, I need some you alone
I know that we need some

Do-not-disturb time, baby
Some leave-the-world-outside time, baby
It's been a long time coming lately
Some do-not-disturb time, baby

Oh, there's a sign on the door
Baby, you can ignore
I'll give you all that you need
Then I'ma give you some more

Do-not-disturb time, baby
Some leave-the-world-outside time, baby
It's been a long time coming lately
Some do-not-disturb time, baby

Do not disturb
Do-not-disturb time

Do not disturb, baby
Do not disturb
Do not disturb
Do not disturb
Do-not-disturb time
Do not disturb, baby
Do not disturb
Do not disturb
Do not disturb
Do not disturb
