## **Worth Waiting**

Lee DeWyze

It's hard when you find love Cuz you never give enough And all the while you were pretending At times you're insecure But I let you know for sure That all the time it was worth waiting

And when you're gone You can listen to this song To remind yourself That it was worth waiting

When you close your eyes It hurts you But you try to stay asleep until the morning

And when we're both awake Your hard in mine, I'll take The beginning of a perfect story

And when you're gone You can listen to this song To remind yourself That it was worth waiting To remind yourself

When you're gone You can listen to this song To remind yourself That it was worth waiting

And when I'm gone I will listen to this song To remind myself That it was worth waiting
