

# I Still Got It

Lee Fields

Oh, save me, I've been around  
Had my share, now listen up  
I'm of age, I'm cool and dangerous  
Take it from me and I'll show you how

Take my hat and my shoes, my girl  
I still got it, I still got it, I still got it, I still got it  
Take my car, my house, my bed  
I still got it, I still got it, I still got it, I still got it

You gotta be cool, break all the rules  
It ain't really about money but you need some too  
Hey ladies, big ones, short ones, tall ones, black ones  
White ones, all ones, I still got it, I still got it

Take my hat and my shoes, my girl  
I still got it, I still got it, I still got it, I still got it  
Take my car, my house, my bed  
I still got it, I still got it, I still got it, I still got it

Take it from me, I've seen everything  
You try to be cool but you fading  
Love what you got  
If you don't use it, you're gonna lose it

Take my hat and my shoes, my girl  
I still got it, I still got it, I still got it, I still got it  
Take my car, my house, my bed  
I still got it, I still got it, I still got it, I still got it

Take my hat and my shoes, my girl  
I still got it, I still got it, I still got it, I still got it  
Take my car, my house, my bed  
I still got it, I still got it, I still got it, I still got it

My, my, my, my  
Oh, oh, oh, yeah, yeah, yeah
