

Just Can't Win

Lee Fields

I know you never had money since
Make just enough to cover rent
It's not the cash that's got you feeling spent
The day to day is like a whirlwind
Spending time trying to make some change
But everything seems to stay the same

You keep trying
You keep trying
You keep trying
But you just can't win
But you just can't win
But you just can't win
But you just can't win

You carry on that's the only way
So clap your hands and stomp your feet
Said clap your hands and stomp your feet
Make your time, don't just make ends meet
Hold fast and you will surely see
You'll hit your mark but it ain't for free

You keep trying
You keep trying
You keep trying
But you just can't win
But you just can't win
But you just can't win
No you just can't win
No you just can't win

You keep trying
You keep trying
You keep trying
But you just can't win
Said you just can't win
No you just can't win
Said you just can't win
You can't win
Just can't win
But you keep on trying
And you might just win
