

Lover Man

Lee Fields

If I am your man
I'll make plans for us
I'll keep you warm with my tender touch
I'll hold your hand til' we turn to dust
If I were your man

I sing you songs until my voice get hoarse
My love won't fade, it will stand the course
If I were your man

If I was your lover man
If I was your lover man

If I were your man
I'd never leave you alone
You see the world
Be like a queen
Like a queen on the throne
If I were your man

If I was your lover man
If I was your lover man

I can't imagine in my mind
A light without you
You and I
I can't imagine in my mind
A light without you
By my side

If I was your lover man
If I was your lover man

If I was your lover man
If I was your lover man
Oh, wanna be your lover
Oh, I just wanna be your man
Let me be your lover man
