

Mighty Mighty Love

Lee Fields

In your life there are times
You go through changes
Don't let it get you down
Keep your faith, keep your faith
You'll see a light shinin' bright
You can make it, you can make it
Stand up and face it
And for the tears through the years
We'll be rewarded
And the pain is not in vain, 'cause somebody's watchin'

You're gonna find a mighty love
You're gonna find a mighty love
You're gonna find a mighty love
A mighty, mighty, mighty love
Someone to love you
Someone to need you
Yes you will

Now I know it seems hopeless
'Cause I felt the same way
But you must go on, you got to be strong
You got to keep on, keep on livin'
And one day, you'll find someone
Who will appreciate the love you've given'

You're gonna find a mighty love
You're gonna find a mighty love
You're gonna find a mighty love
A mighty, mighty, mighty love
Woah, you gonna find a mighty love
Someone to love you
Someone to need you
Someone who cares
Someone who feels, feels so good
Having you around
You're gonna find, woah

You gonna find someone to treat you right
Someone who won't run the streets all night
Gonna find, woah lord
