

# Moonlight Mile

Lee Fields

When the wind blows and the rain flees cold  
Over head full of snow, over head full of snow  
And the window has a face you know  
Don't try to pass slow, don't try to pass slow

The sound of strangers setting nothing to my mind  
Just another day [?]  
I'm just living to be by your side  
Just about a moonlight mile down the road

Mate a [?] of my shiny throws  
got to wear my bones, wear my bones  
I've got silent on my radio  
Let the airways flow, let the airways flow

I am sleeping on a space grey sky  
Just another mad man day on the road  
My dreams are fading down the railways line  
I am just about a moonlight mile down the road

Yeah yeah...

I'm fine [?] sister and I am dreaming  
Darling down your moonlight mile  
I'm fine maybe and I'm dreaming  
Darling down your moonlight mile
