

Standing By Your Side

Lee Fields

I'll wait till you come home
'Cause the lovin' you give hurts like a broken bone
But it's alright, I can stand the pain
You been dead to rights
The court will understand

Ooh baby
I'm standing by your side
I'm standing by your side
I'm standing by your side
I'm standing by your side

Lovin' her is worth the work

You take everything we had
And walk away like it ain't that bad
But it's alright, I can stand the pain
But the price we pay
Ain't worth all the time

Ooh baby
I'm standing by your side
I'm standing by your side
I'm standing by your side
I'm standing by your side

Lovin' her is worth the work

I'm standing by your side
I'm standing by your side
I don't care how long it takes
I don't care how long I gotta wait
I don't care what I gotta do
The only thing I want baby
Is just to be with you

Standing by your side
Standing by your side
Standing by your side
Standing by your side
