

Still Gets Me Down

Lee Fields

What we once had is dead and gone
We broke our families and we moved on
But it still bothers me when I see you two together
Makes me think of the things we used to do
I should know better

Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around

And oh... yeah... uhhh...
Without a silver lining, I was forced to go home
And though I had another, the pain lingers on
I lie awake by my lover, thinking of things we did together
You're still standing in my way
I should know better

Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around

Hey! I should know better
I should've known better
Hey! Hey!

Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around (still gets me down)
Still gets me down when I see you around
