

# Talk to Somebody

Lee Fields

Hey!

What make you act so nasty?  
Bringing rain clouds on my sunny day  
Your hard times have become my hard time

You're making me wanna run away  
I said you're making me wanna run away

I wanna know why  
Can't we just get along?  
Why do your sad songs gotta be my sad songs?  
Why can't we talk and have a good time?  
What's yours is yours  
What's mine is mine

Girl you're making me wanna run away  
I said you're making me wanna run away

Listen to me now  
If you really want to talk  
Talk to your Priest  
He knows more about these things  
He knows more than me

Is too much for one man  
Get down on your knees  
And talk to them  
Hey

You're making me wanna run away  
Oh, you're making me wanna run away

You're making me wanna run away  
Oh, you're making me wanna run away

You need to talk to somebody  
You need to talk to somebody  
And I can't tell you who to talk to  
But ya got to talk to somebody  
Let it all hang out and talk to somebody  
You need to talk to somebody  
Get down  
You need to talk to somebody  
Get down, down, down  
Hey, and talk to somebody
