

Two Jobs

Lee Fields

Ooh
Come on, baby
Keep on doin', uh
Keep on, keep on, on doin'
Oh

I'm so tired when the day is done
I'm working two jobs, gettin' paid for one
I work the first job the whole day through
Run straight home and get ready for job number two

I'm so tired when the day is done
I'm working two jobs gettin' paid for one

One o'clock (keep on working)
Two o'clock (keep on working)
Three o'clock (keep on working)
Four o'clock (keep on working)
Five o'clock (keep on working)
Six o'clock (keep on working)
I gotta stop

How long, baby? Ooh
Oh, keep on doin' it
Keep on doin'
Come on, come on

Some people need fair, some people need lean
Honey, you need love like I've never seen
Honey, you need love and baby, that's alright
Gotta work all day, I gotta work all night

I'm so tired when the day is through
I'm working two jobs and one of them is you

Nine o'clock (keep on working)
Ten o'clock (keep on working)
Eleven o'clock (keep on working)
Twelve o'clock (keep on working)
One o'clock (keep on working)
Two o'clock (keep on working)
I gotta stop

I'm so tired when the day is through
I'm working two jobs and one of them is you

Come on, baby (keep on working)
(Keep on working, keep on working, keep on working)
Make me sweat (keep on working)
(Keep on working, keep on working, keep on working)
You got me working like a dog (keep on working)
(Keep on working, keep on working, keep on working)
You got me working like a dog (keep on working)
(Keep on working, keep on working, keep on working)
And I ain't done yet (keep on working)
(Keep on working, keep on working, keep on working)
Keep on doing it (keep on working)

(Keep on working, keep on working, keep on working)
Baby, keep on doing it (keep on working)
(Keep on working, keep on working, keep on working)
I just love my job
