Wake Up

Lee Fields

Yeah
Yeah

Aren't you tired of all these lies?
Time to wake up, open up your eyes
Don't be led in the wrong direction
'Cause it's time for mass correction

I'm gonna believe just what I see
'Cause what I feel makes sense to me
You can't tell me who to be
'Cause you are you and I am me
And only the truth can set us free

Can I get a witness?
A witness over there
Can I get a witness?
A witness over there
As I look around
And see what's going down
It's getting so hot from me
To keep my cool
And all the things I hear
And see with my two eyes
They keep on telling me
It's fake news
Oh, what am I to do?

I'm gonna believe just what I see
'Cause what I feel makes sense to me
You can't tell me just who to be
'Cause you are you and I am me
'Cause only the truth can set us free

People over there
Somebody need to stand up
And people over there
Somebody need to speak out
And people over there
Somebody need to get loud
Stand up for yourself
Everybody, get loud
