

# Who Do You Love?

Lee Fields

It was a quarter past two, I was riding around  
I give you your space, you want another's face  
Give you what you want, but it's not enough  
Who do you love?

It's none of my fancy clothes or diamonds rings  
Next time you're alone, just think about me  
The first night that we met and I took your heart  
Who do you love, who do you love?

I'm gonna lay it on the line  
I got one thing on my mind  
Never sleeping, I know you're creeping  
Around on me, around on me

Just wasting my time, girl I wanna know the truth  
Messing with my head girl, why did you do?  
When I am with you, things aren't the same  
Tell me who do you love, who do you love?

I'm gonna lay it on the line  
I got one thing on my mind  
I'm never sleeping, I know you are cheating  
Around on me, around on me

I'm gonna lay it on the line  
I got one things on my mind  
Never sleeping, I know you are cheating  
Around on me, around on me

Stop your lying  
Stop your cheating  
I know who it is, baby  
And where you are meeting
