

## Will I Get Off Easy

Lee Fields

I spend every day spinning, spinning my wheels  
Chasing my tail while time is biting my heels  
So I go out late to put my problems aside  
When I come home I see that look in your eye  
That look in your eye

Will I get off easy this time?  
Will I get off easy this time?

I never wanna lose you, forever me and you, oh girl  
All the times you accused me, I been true to you  
Yes I have, girl  
When I go out to blow off some steam  
When I come home I see you lost in a dream  
Lost in a dream...

Will I get off easy this time?  
Will I get off easy this time?  
Will I get off easy this time?  
Will I get off easy this time?
