

Wish You Were Here

Lee Fields

You never missed your well till your well run dry
Seemed like only yesterday you were here, smiling
Now you've gone away, but I know you're in a better place
No traces of you, what can I do, alone and confused

How long till I see your face, how long till I see your face
How long till I see your face, how long
It's just not fair, wish you were here
Spend all my days wasting away, wish you were here

So I'm living life without you and yes, it's hard to go on
'Cause your memory means so much to me and I need to stay strong
Bad as I want you here, it's a shame
To know you're not coming back

I'll wait a hundred years, I'll cry a million tears
Till you're back, till you're back, come back now

How long till I see your face, how long till I see your face
How long till I see your face, how long
It's just not fair, wish you were here
Spend all my days wasting away, wish you were here

I'll find the strength to pick my head up
Time heals all wounds, gotta get right back up
Miss you again, over again, love will not die
Walking the road, I see your eyes

I know you're here, right by my side
Wish you were here, over again

It's just not fair, wish you were here
Spend all my days wasting away
Wish you were here, wish you were here
I just wish you were here, I wish you were here
