

Without a Heart

Lee Fields

Hey, hey
Did you play with my heart
Did you cross the line of finish
Leave me cold dead from the start
Yeah, you put a stain in my heart
It's so red and dead that I can't tell the blood apart
Oh, oh

You just can't tame
A wild fiend lion out in tow
Dancing flame
Ugh, she brought me out cold
Without a heart

Somehow vain is not art
As you sign away my picture and I get your precious star
Summer rain in my heart
It's wrong to kill a flame before it even makes a spark
Yeah, yeah

Nothing gained but I lost my body, my soul and my mind
Love the future, she dumped me behind
Without a heart

Take me home to the park
Lay you down up in my bed doin' strange things in the dark
Hey, hey
If you got brains and act so smart
We go back up in a corner we can help us with this part

It's just the same mistake
Baby I'm going down
But when the morning wakes
You won't come around, hey
Without a heart
Yeah, without a heart
