

## So Long Babe

Lee Hazlewood

I know you're leavin' babe goodbye and so long  
I hope someday somebody listens to your song  
Those bright lights never ever spell your name it's true  
Maybe a change it seem would be the best for you  
Ah so long babe so long babe so long babe so long babe so  
long babe

I know you're leavin' babe goodbye and so long  
Pick up the pieces and go back where you belong  
You gave 'em all you had what did they give you  
They gave you nothin' babe so give 'em nothin' too ah so  
long babe

[ horns + strings ]

I know you're leavin' babe goodbye and so long  
You never made it babe I wonder what went wrong  
They never understood your songs here's what you do  
Just walk away and leave 'em let 'em come to you  
Ah so long babe so long babe so long babe so long babe so  
long babe
