Hi.

Every time you fall down, laugh louder and get up again  
Higher than the time you fell down cuz my name is HI  
Where the music is, I am there as well - music is my life  
Even in the deepest darkness, I brightly shine - I'm a star

At the club, on the streets, in your headphones  
You hear my voice and till this moment  
I shed so much sweat and tears  
I remember, I can't forget  
And now it's time to shine!

Turn it up!  
Put your hands up, raise em HI  
Close your eyes  
Be one with the music  
Now right this moment, say my name

Turn it up!  
Turn up the volume, raise it HI  
If you feel me, say my name

Hi.
