

Gold

Lee Kernaghan

It had been a year since I'd been home
So dad and I took a drive around the farm
We cut some burrs to smoke on, made a fire
Sat down and had a yarn
Lookin' back down the years
I'm right there by his side

It was gold
The moment my heart will hold
It might take a little time to see it shine
It was gold

We hit three bad seasons
And I told him I'm finally givin' up
She held me in the darkness
She wept and whispered
Don't give up

Though the years roll on
I still recall how she believed in me

It was gold
The moment my heart will hold
It might take a little time to see it shine
It was gold

The memories live on and on
The stories of my life

It was gold
The moment my heart will hold
The power to move me on
And keep me strong

Gold
The moment my heart will hold
It might take a little time to see it shine
Gold
The moment my heart will hold
It might take a little time to see it shine
It was gold

Oh, it was gold
