

# It's Only Country

Lee Kernaghan

Out the back on the track  
Down where the Lignum grow  
Utes all round tailgates down  
Diesel bonfire glow  
Cut off jeans, bikini tops  
By the the Billabong  
Swags rolled out, break the drought  
And we're doing it all night long

It's only country  
But we like it  
Get on a dirt road  
And you'll find it  
Spur it up now  
Get on and ride it  
It's hard core  
Long horn  
It's only country

We hit the road, she gets up close  
Flying down the track  
An' I love her new longhorn tattoo  
Low down on her back  
She knows a dog she can cut a mob  
I think I've made it clear  
She's a perfect shot but what makes her hot  
She's born and bred out here

It's only country  
But we like it  
Get on a dirt road  
And you'll find it  
Spur it up now  
Get on and ride it  
It's hard core  
Long horn  
It's only country

If you don't like my Ute and these boots I wear  
If you don't like my hat  
Do you think I care

It's my country and I like it  
It's my dirt road, come on and drive it  
It's my country and I like it  
It's my dirt road  
Get on it  
It's only country  
But we like it  
Get on a dirt road  
And you'll find it  
Spur it up now  
Get on and ride it  
It's hard core  
It's long horn  
It's only country
