

Something Right

Lee Kernaghan

I've been busted up in trouble
And all out of luck
Nothin' to my name
Just a pocket full of dust
I felt like dyin'

I took a lot of wrong roads
Seen a lot of pain
But looking back now
I wouldn't change a thing
'Cause somewhere along the way
There was you

And I must've done somethin' right
Your love shines through the darkest night
We've got a beautiful thing goin' on
Whatever I've done
I must've done somethin' right

I been here with you
Holdin' you close
Maybe there's a higher hand
Who led me down this road
To your arms

And that little one of ours
Has got your smile
Lookin' at us now
It was worth every mile
And I hold his little hand
The years roll away

And I must've done somethin' right
Your love shines through the darkest night
We've got a beautiful thing goin' on
Whatever I've done I must've done somethin' right

And I must've done somethin' right
Your love shines through the darkest night
And we've got a beautiful thing goin' on
Whatever I've done I must've done something right

Whatever I've done I must've done somethin' right
