

Walk a Country Mile

Lee Kernaghan

Well I've walked a mile or two-oo in my lifetime
And I've travelled down some muddy tracks and dry
'Cause if I wanted to get where I was goin'
I knew I'd just have to walk that country mile

Now a country mile would be the longest distance
A man could ever travel when he's down
And you curse the never ending road before you
When you think you'll never make it into town

But you meet a friend or two along the highway
And you'll learn a lot you never knew before
And if the journey takes a lifetime
When you thought a year or two
Well you just don't give up easy anymore

And I've walked a mile or two in my lifetime
And I've travelled down some muddy tracks and dry
'Cause if I wanted to get where I was goin'
I knew I'd just have to walk that country mile

Walkin' that long mile has shown me changes
Changes in the people and the land
But I'll bet the road to Marble Bar's no better
Than when we drove with trucks and caravans

And a country bloke is still the same old battler
No matter what the place he's workin' in
And although I've covered many miles
I still can't wait to see
What the next long country mile will bring

And I've walked a mile or two in my lifetime
And I've travelled down some muddy tracks and dry
'Cause if I wanted to get where I was goin'
I knew I'd just have to walk that country mile

Yeah I've walked a mile or two in my lifetime
And I've travelled down some muddy tracks and dry
'Cause if I wanted to get where I was goin'
I knew I'd just have to walk that country mile
