

# Wheels

Lee Kernaghan

Got a pay check in my pocket, got freedom in the tank  
Got country on the radio, a couple bare feet on the dash  
You know where we're goin', somewhere off the map  
There's a blacktop we can burn up, we ain't looking back

'Cause I got Wheels, spinning around  
Put the pedal on down  
Leave a little dust cloud hanging on edge of town  
I got wheels, and a two inch lift  
A little dirt on my rims  
Shotgun seat with you looking so good in it  
I got wheels  
I got wheels

Well, I might roll on into Cracow, or see the mob out west  
But take this rig off road and put it to the test  
Bouncin' cross the floodways with you next to me  
Chasin' down a sunset up on thirty threes

'Cause I got Wheels, spinning around  
Put the pedal on down  
Leave a little dust cloud hanging on edge of town  
I got wheels, and a two inch lift  
A little dirt on my rims  
Shotgun seat with you looking so good in it  
I got wheels  
I got wheels

It's the place we roll  
It's the way we ride  
It's that thing we do  
It's where the gravel flies

I got Wheels, spinning around  
Put the pedal on down  
Leave a little dust cloud hanging on edge of town  
I got wheels, and a two inch lift  
A little dirt on my rims  
Shotgun seat with you looking so good in it  
I got wheels

(It's the place we roll  
It's the way we ride)  
I got wheels  
(It's that thing we do  
It's where the gravel flies)  
Yeah, I got wheels  
(It's the place we roll  
It's the way we ride  
It's that thing we do  
It's where the gravel flies)

I got wheels
