

# When the Snow Falls on the Alice

Lee Kernaghan

I spent some time out in the canefields  
I headed west to Lightning Ridge  
I've seen every lonely roadhouse  
From Charleville to Murray Bridge  
I see your face in every shadow  
I hear your voice upon the wind  
The more I try to forget you  
The more your memory rushes in

When the snow falls on the Alice and it floods at Tilberoo  
When the Roper freezes over, that's when I'll stop loving you

Just like the end of the rainbow  
You're always just out of reach  
We parted in a moment  
But I've been leaving you for years  
So don't ask where I'm goin'  
'Cause I won't know 'til I arrive  
Though you're a thousand miles behind me  
You're never far from my mind

When the snow falls on the Alice and it floods at Tilberoo  
I'll lay my burden down, and my waitin' will be through  
Till then you'll find me on the highway just somewhere beyond the blue  
When the Roper freezes over, that's when I'll stop loving you
