

## Dog Gone Right

Lee Rocker

Well, the dog starts yappin' when you're around  
Teeth over flesh, he's a dirty old hound  
Howl at you, late at night  
Everything about you is dog gone right

Well, scratching for fleas, diggin' for bones  
Gonna take off far away from home  
Come back later, late at night  
Everything about you is dog gone right

Well, everything about you is dog gone right  
Watch out girl, I think he'll bite  
Howl at you through the night  
Everything about you is dog gone right, dog gone right

Oh that's right

Well, the cats meow and the bird goes tweet  
Lions rumble, stamp their feet  
Snakes they crawl and shed their skin  
Come on baby, just shake that thing

Pulled his leash and choked his chain  
Baby watch, he'll go insane  
Want me baby, late at night  
Everything about you is dog gone right

When you grab his back, you wage his tail  
Throw a ball, he fetch the mail  
Can't you tell this ain't right  
Everything about you is dog gone right

Well, everything about you is dog gone right  
Watch out now, I think he'll bite  
Howl at you through the night  
Everything about you is dog gone right

Dog gone right  
Dog gone right  
Dog gone right
