

## Lost On the Highway

Lee Rocker

She was standing in the shadow  
By a flood green light  
Like a ghost or like an angel  
From a long lost night

She said it was easy  
But she's seen a lot of things  
The years been passed  
Like Santa Ana winds  
Feels like it was only yesterday  
Lost on the highway

The bar was empty  
And the air was hot  
In a darkened corner stood  
An old jukebox

Filled with records from yesterday  
I grabbed a couple of quarters in the music play  
And it played, feels like it was only yesterday  
Lost on the highway

Last I'm seeing you, you're crying  
The rain was falling from your eye  
I drove all night like I was flying  
Five hundred miles on a lost highway

We knock a few back  
And have some laughs  
Talked about the past  
The good and the bad

She said to know just to how it feels  
To loose everything beneath the spinning wheel  
It feels like it was only yesterday  
I know there ain't nothing left to say  
Baby, we all got our price to pay  
Lost on the highway
