

# Upright and Underground

Lee Rocker

You wanna leave, I'd better let you  
Get along pretty baby, know you're not yourself  
Get around and I'll forget you  
You never take the place of someone else  
You're like the black cat baby  
Well, this ain't right  
Need a good luck charm on a doggy night  
I'm upright and I'm underground

You're like the devil and you're my woman  
I keep my eyes on you baby both the night and day  
Get along pretty woman  
When you ain't got baby, better run away  
I keep on movin' in the depth of night  
I keep on rockin' in the broad daylight  
I'm upright and I'm underground

They talk behind my back  
They say that you been running 'round  
Say a black cat follows me  
Trys to drag me down  
I don't need you anyway  
And you can't knock me down  
I'm upright and I'm underground
