

Too Far Gone

Lee Roy Parnell

Hurt can make you say a lot of things
Make you walk away from everything
Get you thinking your love was all in vain
That's how pride works you know
Tells you let him go - yeah
And though you're telling me it's over now
But in your voice I can hear the doubt
You say your tears for me have all run out
Why are you crying then - uh-hm
If we're not too far gone
We can fix what went wrong
I know our hearts were home when I was with you babe - uh-hm

And if we're bent not broke
I know there's still some hope
It's too good to let this go
So I'm hanging on
If we're not too far gone

Others leave when they've had enough
Go out and try to find a better love
But end up lonely when the sun comes up
Living with regret
Well we ain't there yet
Let's just find a way to work this out
Meet on a common ground somehow
You're the one thing I can't live without
If there's a spark inside
It's worth the try
If we're not too far gone
We can fix what went wrong
I know our hearts were home
When I was with you baby
And you were with me baby

If we're just bent not broke
I know there's still some hope
It's too good to let this go
So I'm hanging on
If we're not too far gone

Through the cold and the endless nights
Yeah, the darkness made me see
I could waste my time on someone else
But there ain't no other you and me
No baby

And if it's bent not broke I know there's still some hope
It's too good to let this go
So I'm hanging on
If we're not too far gone
Ooh too far gone-yeah
