

Wasted Time

Lee Roy Parnell

You keep telling me you just don't know
And you wish we had met a long time ago
'Cause once a heart's been broken so much
It's gonna be a little shy to the touch

And I know that love can be so hard
But it's just what we had to go through
To get to where we are

There is no such thing as wasted time
So don't regret what's left behind
'Cause we learn from our mistakes
And the chances that we take
There is no such thing as wasted time

Sometimes I look down the road
At where I've been and where I want to go
The plans I made never worked out right
And the battle I lost were never worth the fight

But there's so much ahead for you and me
And I know that I ended up
Just where I was meant to be

There is no such thing as wasted time
So don't regret what's left behind
There are the chances we must take
And mistakes that we all make
But there is no such thing
No such thing as wasted time

There's so much ahead for you and me
And I know that we ended up
Just where we were meant to be

There is no such thing as wasted time
So don't regret what's left behind
'Cause we learn from our mistakes
And the chances that we take
There is no such thing, no such thing
There is no such thing as wasted time

No such thing as wasted time
