

## You Can't Get There From Here

Lee Roy Parnell

In a heartbroken town you were lucky you found true love  
But that wasn't enough  
Your eyes started to stray then you wandered away  
Now you're worried cause you've run out of luck  
As the night turns lonely and black

You would trade your last day just to find your way back  
Oh but you can't get there from here

It is all within view and so painfully near  
The saddest of truths has all become clear  
The world you can't hold is the one you let go  
And you can't get there from here  
The one you did wrong took it hard then moved on  
Until she found a heart that was honest and true  
You pretend you don't care when you see her somewhere  
A shine in the eyes of her somebody new  
While inside it hurts you so much  
Just to know you can look but you know you can't touch  
Oh but you can't get there from here...  
In a moment you can alter a lifetime

Then spend a lifetime tryin' to find your way back  
Oh but you can't get there from here...
