

# Don't Leave Me

Lee Ryan

Without your smile  
Without your touch  
I am not used to anyone  
Without your voice  
To soothe my ear  
I am lost  
Not know in which way to turn

Always see the beginning  
And fear it's the end  
And you tell me you love me  
I can't comprehend  
So...

Don't leave me  
Now you're with me  
Please, say you'll stay always  
Don't leave me  
Now you're falling, girl  
Cause without your love  
I am not used to anyone

Without your hand  
Entwined in mine  
It's a miracle I still breathe  
Come rain your shine  
Until all time  
I will love you eternally

Always see the beginning  
And fear it's the end  
And you tell me you love you  
I can't comprehend, no

Don't leave me  
Now you're with me  
Please, say you'll stay always  
Don't leave me, no  
Now you're falling, girl  
Cause without your love  
I am not used to anyone...

Don't leave me  
Now you're with me  
Please, say you'll stay always  
Don't leave me  
No, I'm falling, girl  
Cause without your love  
I am not used to anyone
