

Fall From The Sky

Lee Ryan

She's like a friend of mine
We're going back in time
She said I'd always be the one
She could count on
Got wit a burnin' guy
She doesn't realize
He don't love her like he's supposed to do

Now I don't wanna be the one to (to hurt her)
Her dream of love will never come true
A silver tongue he's got, but the one for her he's not
And I know it's gonna break her heart

I can't get her off my mind
Can't let her cross the line
She's a precious thought
Don't wanna see her fall from the sky
If my heart should fall and break
I don't know if I could take
And if she was mine
I'd never let her fall from the sky, from the sky, from the sky

She's like a symphony, played in a major key
Her sound hits the nose perfectly
But he don't hear that song, and he don't sing along
I know, won't be long till he's gone

I don't wanna be the one to (to hurt her)
Her dream of love will never come true
A silver tongue he's got, but the one for her he's not
And I know it's gonna break her heart

I can't get her off my mind
Can't let her cross the line
She's a precious thought
Don't wanna see her fall from the sky
If my heart should fall and break
I don't know if I could take
And if she was mine
I'd never let her fall from the sky

I wanna play this right
Say the words that would make her fall
In time I know I will regret
If I don't [?]

I can't get her off my mind
Can't let her cross the line
She's a precious thought
Don't wanna see her fall from the sky
If my heart should fall and break
I don't know if I could take
And if she was mine
I'd never let her fall from the sky
I can't get her off my mind
Can't let her cross the line
She's a precious thought

Don't wanna see her fall from the sky
If my heart should fall and break
I don't know if I could take
And if she was mine
I'd never let her fall from the sky
