

# Mockingbirds

Lee Ryan

They say that if you love it, let it go  
And if it comes back, you know  
You know, it's yours  
But they don't live life in this goldfish bowl  
They just assume that they know  
They know it all  
So tell me, is this how it ends  
Trial by fair weathered friends

So if this is over  
Before we begun to  
Show each other lovin'  
How could we know  
When the mockingbirds, they cover the sun  
Its over before it's begun

Those sticks and stones they throw my break-a-bones  
They say shit that they want us to believe  
Unless those words come straight from your soul  
Then they will never hurt me

Never thought they'd taken you in  
Can't believe it's happened again

So if this is over  
Before we begun to  
Show each other lovin'  
How could we know  
When the mockingbirds, they cover the sun  
Its over before it's begun

There are so many hearts  
That have been torn apart  
And the question that you need to ask  
We let the mockingbirds have the last laugh

Cause if this is over  
Before we begun to  
Show each other lovin'  
How could we know  
When the mockingbirds, they cover the sun  
Its over before it's begun  
Its over before it's begun
