

Right On Time

Leela James

Something that you told me
Found a way straight to my heart
It feels just like you've know me
From another life, worlds apart
Cause you put that fire in me
That burnin' desire in me
And I ain't used to feelin' like this
But your love runs so deep

The way you give good love to me is
Right on time
And I was just about to give on up, but you came...
Right on time
I was done, I was cool... fed up
But you came and you showed right up
Oh, I need you in my life, your love is
Right on time

It's a fact, you're all that
You brought the sun and my blue skies back
I know it's real, what I feel
Can't nobody tell me that I'm wrong
Cause you put that fire in me
That burnin' desire in me
Takin' me to brand new places
I'm right where I wanna be (wanna be...)
Right where I wanna (wanna be...)

The way you give good love to me is
Right on time
And I was just about to give on up, but you came...
Right on time
I was done, I was cool... fed up
But you came and you showed right up
Oh, I need you in my life, your love is
Right on time

Say less
You ain't gotta prove it to me
Say less
Cause you already showed me
Say less
You're given me all I need
Right on time
Say less
What's understood ain't gotta be spoken
Say less
I'm down for you baby, don't you notice
Say less
Cause all the love you give to me is
Right on on time

Ooh yeah... yeah, yeah

I was done, I was cool... fed up
But you came and you showed right up
Oh, I need you in my life, your love is

Right on time

The way you give good love to me is

Right on time

And I was just about to give on up, but you came...

Right on time

I was done, I was cool... fed up

But you came and you showed right up

Oh, I need you in my life, your love is

Right on time
